

Can you steal while holding your fingers in the ears?

Perfect combination with security fog

The siren is perfect in combination with fog protection.

Suits all interior

An elegant and discreet design that suits most homes and businesses.

Security Sounder™

A siren is a discreet but very “deafening” and stressing security device to burglars. Particularly in combination with a fog cannon, a siren creates an inferno that drives away even the broad-shouldered criminals.

Features:

- Security Sounder emits an unbearable, but harmless, noise that attracts attention and forces burglars to flee
- We recommend Security Sounder because a burglar cannot steal while holding his fingers in the ears
- Adjustable time and volume (delay also possible)
- Integrated rechargeable battery
- Suitable for all alarm systems
- Security Sounder is vandalism-proof with impact-resistant front
- For wall and ceiling mounting

Specifications:

- Security Sounder emits noise up to 120 dB (A)
- Three volume settings (delay also possible)
- Function time: 30 sec. - 8 min. (5 settings)
- Power connection: 12V, 1 A
- Integrated rechargeable battery
- Energy-conserving with a standby consumption of less than 5 Watt
- Mounting bracket included
- Dimensions (mm): L: 405 x D: 80 x W: 160
- Weight: 2 kg
- CE marked

Printing errors excepted. Subject to changes to technical data.
