IntelliCloud™
SERVICE REPORTING SYSTEM

PROTECT® | SECURED IN SECONDS

SAFE AND SATISFIED CUSTOMERS

You will always know if the registered fog cannons perform optimal, or if a service call is required.

IntelliCloud constantly monitors every registered fog cannon. This will enable the alarm installer to act if something unexpected happens.

FULL OVERVIEW – INTELLICLOUD AUTOMATICALLY NOTIFIES YOU

Register all of your fog cannons in the IntelliCloud system and you will get a full overview on the screen.

You can monitor the installations on an interactive map and generate a list.

You will receive an e-mail when a service call is required, this is also designated by a red warning dot on the user-friendly dashboard.

SAVE TIME AND MONEY

IntelliCloud will inform you when it's time for a service call, this will prevent unnecessary customer visits.

The technician will know beforehand where to go, who to contact and what to bring.

IntelliCloud™

SERVICE REPORTING SYSTEM

EVERYTHING DOWN TO THE SMALLEST DETAIL

All of your customers, their precise location and the exact fog cannon details are entered by the alarm installer. The technician therefore knows beforehand which rooms to visit, and will know in advance the relevant data; the battery status, the fluid state and any technical error options – everything is visible in IntelliCloud.

FREE TO USE

Our cloud-solution for alarm installers and customers is free.

IntelliCloud just requires an IPCard for the fog cannon.

Most of the PROTECT Fog Cannon range are compatible with IntelliCloud.

FLEXIBLE SYSTEM

IntelliCloud is a flexible solution and will work on all devices from desktops to mobile phones 24/7. You can update the system with new users as you wish. IntelliCloud is an intuitive, web-based tool to achieve optimal fog cannon installation.

MONITORING THE FOG CANNONS 24/7

IntelliCloud gives the alarm installers the tools to provide personalised customer service, whilst your customers will sleep well at night, knowing that their installation is fully serviced and up-to-date. Best of all, IntelliCloud is completely free.

| CONNECTION | FLUID | BATTERY | TECH ERROR | POWER | FOG LAST 24H |

IntelliCloud is a flexible solution and will work on all devices from desktops to mobile phones.

EUROPEAN QUALITY
– DANISH DESIGN

PROTECT is the bestselling security fog system and is the world market leader in the security fog industry.
