

WHILE YOUR
PETROL STATION
IS CLOSED

WE'LL SECURE
YOUR CIGARETTES
WITH FOG

SECURED IN SECONDS

STOP BURGLARS IN SECONDS!

- Suitable for shops, warehouses and offices

PROTECT security fog is white, dense and dry and for increased disorientation, you can add a strobe light and a siren.

THE PERFECT PROTECTION AFTER CLOSING TIME

Fog security means the immediate protection of your valuables!

A PROTECT Fog Cannon will fill a room with a blanket of dense security fog, rendering the intruder blind, it works on the principle that you cannot steal what you cannot see.

Break-in

20 sec.

10 - 45 min.

Keep the intruders out for up to one hour - ample time for police or security services to arrive.

This CCTV-recording shows an attempted burglary in a shop. After only 12 seconds the burglar is out again with no stolen goods.

BE SAFE – SLEEP WELL WITH SECURITY FOG

Petrol stations are often easily accessible out-of-the-way buildings - which makes them more vulnerable to burglary and break-ins. The burglars hope to steal cash, tobacco products and liquor, but petrol station owners are also dogged by vandalism to fittings.

Uninvited guests can be expensive and staff may be unhappy, insecure and fed up of having to tidy up after the vandals. That is why the world's largest petrol companies have installed security fog systems because they work and because they save money.

FOG CANNON FOR YOUR SAFETY:

- Protection of safe boxes, tobacco and liquor
- No room is too small or too big
- Choose between more models
- Harmless fog and leaves no damage
- A modest investment and low operating costs
- Quick return on investment
- Up to 5 years warranty

” THE NUMBER OF BREAK-INS HAS FALLEN DRAMATICALLY

“Since we began installing security fog in 2009, the number of break-ins at our 176 petrol stations has fallen dramatically. We have the upper hand - in almost all break-ins the burglar fails to take anything of value,” explains Security Manager Klaus Peiner Thomsen from Q8 Denmark.

Also Esso’s 40 stores in Norway save money every day because break-ins have been almost eliminated since security fog was installed. “The fog makes it impossible for the burglar to find valuables in the stores, and neighbors without fog protection are running a big risk,” warns HMS officer, Janne Eriksen from Esso Norway.

Security fog has a preventive effect, helps provide better working conditions for staff, and ultimately security fog can have a positive effect on the insurance excess. “The fog prevents burglars from attacking our fittings which are only partly insured,” explains Austrian Aral tenant, Leo von Aussee Grieshofer.
